A New Book from SHARIF ABDULLAH and COMMONWAY INSTITUTE!!

SEVEN SEEDS for a New Society

SEVEN SEEDS for a New Society offers a new way to approach our inner lives, our society and our spirituality. This book provides tools to help us move from a society based on fear, lack, violence and greed, to a society based on love, compassion and relationships with all beings.

There are two futures facing the human family… only one of them is viable.
From “Seven Seeds for a New Society”

At times inspiring, challenging and controversial, social-spiritual activist Sharif Abdullah articulates for us the need to transform our toxic “operating system” (how people interact in the world) to one based on love, compassion and relationship. Sharif challenges us to apply our spiritual and moral values in the world, in a practical, realistic way that can save humanity, all beings, and the Earth.

If you are concerned with ecology, sustainability, economics, social justice, politics, spirituality… if you are concerned with the fate of our world – this is your book.

Order Your Copy Today!
Ordering “Seven Seeds for a New Society” direct online from our printer produces the maximum benefit for Commonway’s nonprofit mission from your purchase, at no additional cost to you. To purchase direct:  http://www.lulu.com/content/7396858

Seven Seeds for a New Society

DETAILED TABLE OF CONTENTS

SEED #1: The Offering
We need a new perspective on seeing our challenges and a vision of our future.

SEED #2: Seeing the Problem
We have created a toxic way of living on this planet. The default option is that we don’t make it. But, there is another way. Our problems are driving us to “Plan B”, a new way of looking at humanity.

SEED #3: The Solution
Humanity is evolving to a new way of being. There are many books and many teachers who advocate a transformation of human consciousness. We are taking the next step: advocating the evolution of humanity, for the purpose of saving ourselves, all beings, and the Earth.

SEED #4: Principles and Values
Our current society is dominated by one primary value: money. Religions that are based on exclusivity have failed to supply the way to a 21st Century that works for all. We must transform to a society based on our universal spiritual/moral principles and values. Our prime value must be enhancing the Web of Life.

SEED #5: The Relational Operating System
ROS is based on inclusivity, abundance and relationships with all beings. Our current operating system is based on fear, adversarial relationships, exclusivity, scarcity and greed. We need a change.

SEED #6: The Relational Agents
We are conscious supporters of a relational operating system. We are moving away from behaviors that support and reinforce the fear-based, adversarial, exclusivist, scarcity-based operating system. We can end the Breaker system by becoming conscious, and behaving accordingly.

SEED #7: Next Steps for Humanity
We are unleashing a vision of a world that works for all beings. With this long-range vision, we can then see the steps we must take to co-create our future.

Excerpts from the Book “Seven Seeds for a New Society”

We have been toxifying the Earth and killing one other for the last 8,000 years of human history. This moment is coming to an abrupt end. Whether we end with the moment – or evolve to the next step for humanity – is up to us.

If we cultivate integrity, generosity, compassion, and relationships… the way we cultivate the love of money and the suspicion of each other…we will live in a profoundly different world.

Our next 100 years will be intensely spiritual – but unlike anything currently espoused by religious institutions.

We are creating an operating system that honors, harmonizes and integrates the hopes, the values and world-view of the Keepers with our current complex, global and technological point of view.

There are two futures facing the human family: the Breaker future and the Mender future. Only one of these is viable.
